Sir:

The above-entitled application was filed June 25, 2003 and received Serial No. 10/603,272. The Filing Receipt which was mailed September 10, 2003 confirms the foregoing. The foregoing procedure was discussed in a telephone conference with Examiner Larry Schwartz who advised that the same was acceptable.

**METHOD AND SYSTEM FOR PROVIDING EDUCATION RELATED
INFORMATION AND APPLICATIONS OVER THE INTERNET**
Filed: October 10, 2000
Inventor: Alex Scott Lambert
Our Reference: 869938.0003 (TSSI-101)

Dear Mr. Sundstrom:

As of October 1, 2003, the Intellectual Property Group of Cummings & Lockwood transferred to McCarter & English, the law firm shown in the letterhead. The files of the Intellectual Property Group's clients as well as most of the IP attorneys were transferred to the new entity. If you would like any information regarding the change as it relates to your company, please let me know and I will be glad to provide the same.

Enclosed is a copy of the Office Action as now received in this case.

The Examiner has cited a single reference, U.S. Patent 5,884,035 issued March 16, 1999 to Butman et al. and assigned to PFN, Inc., copy of which is also enclosed.

All of the claims in the case have been rejected as being unpatentable on the ground of obviousness over this patent.

The Examiner's position is that Butman discloses the method set forth in claims 1, 9, 17, 20, 23, 26, 29, 30, 33 and 34 (see page 2, paragraph 2 of the Office Action) and claims 2, 10, 18 and 21 (see page 3, paragraph 3 of the Office Action). This certainly is less than all of the claims presented by the applicant and the Examiner should have addressed the other claims with some particularity. Instead the Examiner admits that Butman does not specifically disclose or describe:

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
